Komplek Bandung Indah Raya C6 No.16, Kota Bandung, Jawa Barat

I'm a student in Telecommunication Engineering at Telkom University, I have a high interest in the IT, especially cybersecurity, networks and making websites. Also i have high interest learning about new things, and easily adapt with new environment.

Education Level

Telkom University - Bandung, Jawa Barat

Sep 2021 -

Undergraduate S1 Telecommunication Engineering

21 Senior High School - Bandung, Jawa Barat

Aug 2018 - May 2021

Work Experiences

PT Telkom Indonesia - STO Kalibata, Pasar Minggu, Jakarta, Indonesia

Feb 2024 - Jun 2024

MSIB Batch-6 Internship

- I worked as a Front End Developer on the Dashboard Auto Insight project, designing and developing a visually appealing and responsive user interface using Next.js and TypeScript, with TailwindCSS for styling. I integrated the front end with back-end services for seamless data flow and efficient data visualization, while collaborating closely with design and back-end teams to maintain high-quality UI/UX standards. My role involved testing and debugging to optimize performance and functionality, strengthening my expertise in modern front-end technologies and delivering effective, user-friendly interfaces.

Organisational Experience

Telkom University Education Movement - Telkom University

Dec 2021 - Dec 2023
